Take a quick look back —

. . . in this Bicentennial year, to beginnings . . . a new life, in 1776, for Europeans in a new country . . . old needs for food and shelter with new ways to fulfill them . . . a new government, a new flag, a new United States.

. . . an old, 1876, map of a new community . . . a first high school for that agricultural and coal producing area, new products, new things to do.

. . . and in 1976 a new first grader, a new seventh grader, a new senior . . . all a part of the old but each one new.

End sheet design and information on p. 3 taken from a reproduction of the 1876 County Atlas of Somerset, Pennsylvania. Original Publisher, F. W. Beers and Co. 1973 printing published by the Somerset County Archeology Society, Inc.

DR. GROGAN shakes hands with the senior "PERSONALITY" people, ROXANE KOLINSKI and MIKE MAURER.

Voted "BEST ALL AROUND" by their class are AMY FISHER and RICHARD LEPLEY.

A LETTER FROM THE FIRST CLASS OF BOSWELL HIGH SCHOOL — 1914

"The last shall be first and —" Since the second clause of that repeated statement is not applicable in this particular instance, we'll omit it.

I know that I am voicing the sentiments of the First Class of Boswell High School, when I say that we retain first place, figuratively, literally, or any other way. It is our right inviolate.

Prof. H. S. Alahouse very ably guided and directed our course throughout our first year.

In the beginning we were about twenty-five in number. In the end we were but four. Indifference, economic pressure and even, I may say, incompatibility — these factors entered in and aided in greatly reducing our number.

Prof. W. H. Troutman was our very congenial Principal during our second year.

Of the four who graduated with the first class, two were non-resident students.

The North East room on the Second floor of the Municipal Building served as classroom, library, gymnasium, assembly hall, and laboratory (?).

Occasionally, we very obediently, congenially, and respectfully (yes, almost solemnly) gathered in the larger room for a "sing".

Supplies were inadequate and the ordinary and wholly essential school conveniences were lacking.

This fact remains — we were the first. No one can deny that. No one desires the place — but the class, itself. No one envies us. The date suggests antiquity — but we were first.

Respectfully,
"THE FOURTEENERS"

Cindy, as an introduction to our underclassmen, gives us a quick history of Jenner Twp., home of our Boswell campus students.

JENNER TOWNSHIP is located in Somerset County, at the northern end of the great Allegheny Tableland in the valley at the base of Laurel Hill Mountain, embracing an area of more than 50 sq. mi. Included are the Boroughs of BOSWELL and JENNERTOWN, and the unincorporated communities of JENNER, GRAY, ACOSTA and RALPHTON, plus small villages.

History of the area goes back to the 1780's, when the first land patents were issued. During the French-Indian War, lines of communication were formed between Bedford and Pittsburgh, and in 1758 an expedition led by Gen. Forbes established the famous Forbes Road, which was a major factor in the early growth of the area. The first incorporation was in 1874, under the name of Laurel Hill. In 1882 the name was changed to Jennerstown. At about this time the name of the Township was also made Jenner in honor of Dr. Jenner.

Many large mining companies came to this area because of its tremendous untapped coal resources, among them Merchant's Coal Company, which originally built a part of the town of Boswell. Later the ground was conveyed to the Boswell Improvement Company and they laid out the town into 1600, 50' x 120' lots (1 sq. mi.) The town of Boswell was incorporated as a Borough in February 1904. The Baltimore and Ohio Railroad built a branch line to the town in 1902, plus a large passenger and freight station shortly thereafter.

The Consolidation Coal Company at this time was buying up farms to establish mines, and in 1913 one of these areas, known then as Biesecker, began mining operations employing 500 men. The shaft was 300' deep. Houses built by this company were all painted gray, and the town became known as Gray, a name still standing today. In 1948 the coal company sold the houses to residents or other interested persons. The Consolidation Coal Company, in 1911, purchased the mine at Acosta and operated it until 1945 when it was leased to the Pittsburgh Coal Company. In 1951, the Gray-Acosta Coal Company took it over and operated it until late 1950's. When the Acosta mine closed, it marked the end of an era in Jenner Township, being the last of the large mining operations beneath the ground in the Township. Many small, deep mines are still in operation, and strip mining is one of the major operations in the area.

When the Consolidation Coal Company moved into the Gray-Acosta area, it also purchased the mines in the Jenner-Ralphton area. The town of Jenner was built by the Company and completed in 1911. The Jenner mine was serviced by an extremely large deep well water supply. The water was pumped to the surface and run through a large aeration purification plant located nearby. This plant, with its 180 jet spray, was a beautiful sight to see and attracted much attention. The water also supplied the town's needs.

In 1947 the Consolidation Coal Company sold out to the Pittsburgh Coal Company, forming the Pittsburgh Consolidation Coal Company. In 1948 the company sold the houses to the residents but retained the mine, although operations ceased. The water plant was sold to the town, which operates it today. The aeration plant was closed and chemical purifiers added to the water. The supply of water in the Jenner Well is so vast that engineers cannot measure it.

In the fifties, many industries moved into the area. Also the mountain recreational abundance was developed into one of Pennsylvania's largest tourist attractions. Somerset County and Jenner Township are fast becoming one of the most popular all-season vacation areas on the Eastern Seaboard.

REX COLLIIUM

"Many years ago, the Red Men
Roamed across these wooded hills;
Hunted deer within the forest;
Pitched their wigwams by the rills.

Then it was tradition tells us,
That a mighty Quntills Chief
Sent a message to his tribesmen
At the time of "Falling Leaf";

Telling them, that six Full Moons hence
He would hold a feast most rare,
When the mightiest of his warriors
Should receive his daughter fair.

At the time by him appointed,
Warriors came from far and near
To the hills where now stands Boswell
With our High School, grand and dear.

Here they raced and here they wrestled
All their skill and strength was tried;
And the mightiest man among them
Won the fair and dainty bride.

Ever since that famous marriage
All the tribesmen of Quintills
Have proclaimed this little mountain
As, "The Monarch of the Hills."

**50 YEARS OF
REX COLLIIUM
200 YEARS OF**

Rex Collium, meaning the "King of the Mountain" or "Monarch of the Hills," was written in poetry form by Charles A. Weed, a former biology teacher at Boswell.

1976

1976 Crest of Somerset County

The designs, superimposed upon an outline map of Somerset County, depict a rampant dragon (derived from the crest of Somerset County, England, for which this county was named) and encircled symbols of the industries and agriculture which support Somerset County. Two maple leaf designs also pay tribute to the County's "Sweetest Industry," products of the sugar maple.

Design by Alvin Carnahan and Jack Foreback.

THE THEME OF THE SOMERSET COUNTY BICENTENNIAL COMMISSION

The theme consists of two sections, both selected by County-wide open contests. The VERBAL THEME, "RELIVING YESTERDAY, TO BETTER LIVE TOMORROW," was submitted by Angela M. Ogburn of Glencoe, Pa. The VISUAL THEME, a red, white, and blue stylized star, symbolizes the people of Somerset County holding hands in a gesture of cooperation and celebration. It was submitted by Reverend James Hanna of Meyersdale, Pa.

Together the two themes form the official theme adopted for the County's celebration of the 200th birthday of the Nation.
